

Submission Guidelines

Scans of photographs and advertisements should be of the highest quality that you are able to send through email. If you don't have access to a scanner, postal mail gladly accepted. Use the contact form to send me a notice and we can further discuss details.

Images submitted for use should be of the highest quality that you can provide taken at the viewing angles shown in the examples listed below. I need images of at least the sizes shown, preferably larger. The high quality will allow for better reproduction of photos in printed matter such as books and catalogs.
